Carey delivers her inspirational message
by evoking your desire to
THRIVE and not just **SURVIVE**.

She will
INSPIRE POSITIVE CHOICES
in You!

Yesterday I had told all of my classes to be very respectful of our guest speaker because she had a very emotional story to share. That she was local and had been hit head on by a drunk driver just west of town About 5 years ago right after Christmas.

A 8th grade boy in my pride class said I remember seeing that accident.

During the assembly I was sitting by the 8th grade class and I turned around and saw him in the crowd and he had tears running down his face. But what got me was after Carey finished speaking the whole student body clapped for several minutes then stood up and clapped even louder and longer.

It's these things that make me proud to be a teacher!

-B. Knight

A standing ovation for Carey Portell! Thank you for sharing your journey with all of us! "...I'm just not done living yet..."

-OMG AgriPride Women In Agriculture

"This morning for the first time I went and listened to this amazing lady speak, about her tragedies that she and her family go through on a daily basis..... The thoughts that go through my head are hard to put into words! She is a very inspirational person that makes me smile every time I see her it doesn't matter if I have seen her recently or months have passed she still has a smile on her face, a glow in her eyes, and the most up beat attitude on life. Even though tears were shed today as I watched and listened to her tell her story she still walked off that stage smiling and ready to meet each person one on one.....Carey Portell I just want to say Thank u for being who u are, for being my friend, and for being such an amazing example of Strength, Forgiveness, Hope, Choices, Faith, LOVE and showing us all that with determination and GOD all things are possible! I am beyond proud of you and the accomplishments you have surpassed."
